SUMMARY

Experienced Cloud and Systems Engineer with 4+ years of IT support background, including work at LTIMindtree in Microsoft Project. Skilled in DevOps, MLOps, and OS Engineering. Motivated recent graduate in AI systems eager to contribute and grow within a dynamic organization. Fluent in Polish, English, and German.

EXPERIENCE

❖ Senior Cloud and Infra Management Engineer, LTIMindtree May 2024
Krakow

- Working on behalf of **Microsoft** as a **cloud and infrastructure engineer**.
- Diagnosing and repairing issues related to the implementation and configuration of devices and virtual machines in the Microsoft environment.
- Analyzing system and diagnostic logs to identify and resolve issues.
- Analyzing **C++** and **C#** source code for issues occurring after new system updates.
- Creating and optimizing **PowerShell** scripts to automate system management.
- Resolving issues with **Windows** and **Windows Server updates** and **activation**.
- Diagnosing and managing driver errors, including ODBC.
- Providing technical support for cloud environments on the **Microsoft Azure platform**.
- Using and testing **AI agent systems** in our development process.
- Communicating with international clients via phone and email, and creating technical documentation and instructions in **Polish, English, and German**.
- Collaborating with network teams, **Active Directory** administration, and other IT departments.
- Working with **Microsoft Copilot** and utilizing **Azure AI** solutions to support and optimize processes.

❖ Senior IT Analyst, HCL Tech Nov 2021 — Apr 2024
Krakow

- Resolving technical issues related to **Windows, Microsoft Office**, web browsers, and other applications.
- Installing and configuring Microsoft applications and other programs according to client requirements.
- Phone and email contact with clients in **German** and **English** to diagnose and resolve issues.
- Working with spreadsheets and generating reports on issues and solutions.
- Managing computers, users, and licenses in **Microsoft Active Directory** and **Microsoft Azure**.

EDUCATION

❖ AGH University of Science and Technology 2024 — 2025

PgDip, Artificial Intelligence Systems Engineering

Cracow

- Practical aspects of implementing **AI** solutions in applications and IT systems.
- Creating **DevOps** and **MLOps** solutions, including learning and using **Docker, Terraform, CI/CD, DVC** and others.
- Advanced aspects of **Python** language in theory and practice, including **object-oriented** and **functional programming**, writing efficient code, implementing custom mathematical libraries.
- Learning basic and advanced Python libraries: **NumPy, PyCharm, PyTorch, Pandas**.
- Creating and training AI models using **PyTorch** and **Scikit-learn** libraries.
- Creating environments and virtual machines in **AWS** and deploying applications in **Elastic Container Service**.
- Extensive use of version control system **Git** and **GitHub** platform.
- Using **Linux Fedora** and **Ubuntu** systems in the software development process.
- Basics of computer networks.
- Architecture and programming of IT systems and **web applications**, creating **fullstack** applications using **React, FastAPI, JavaScript, TypeScript, Next.js**.
- **AI algorithms** and models used in various industry and business sectors, including symbolic AI, heuristic algorithms, machine learning, and neural networks.
- Deep knowledge of **generative artificial intelligence** and **language models**.
- Databases in theory and practice, including **PostgreSQL, DuckDB, Polars**, and **SQL** language.
- Creating **Retrieval-Augmented Generation (RAG)** using vector databases like **Milvus** and **pqvector** (extension for PostgreSQL).
- Designing **AI agent** systems using **Google ADK** as part of the diploma thesis.

❖ Cracow University of Technology 2018 — 2023

Bachelor of Technology, Civil Engineering

Cracow

- Design, analysis, and implementation of building and infrastructure constructions.
- Emphasis on **computational methods**, building mechanics, and the use of design software.
- Knowledge in civil and material engineering.
